Professional Experience

Stephen joined Architectus in 2017 as a Senior Associate and has over 15 years' experience working on healthcare, education, retail, residential, large urban regeneration and mixed-use projects in both Australia and Ireland.

Stephen's sound leadership abilities and experience in managing projects from initial concept design through to completion, ensures a strong client relationship and a high quality design outcome. Stephen approaches all projects with enthusiasm and enjoys the unique challenges presented by each new site and brief.

Stephen relishes the opportunity to create enriching environments that enliven the senses through the orchestration of form, colour, texture, volume, acoustics, and atmosphere. Bringing a wealth of knowledge to all projects, Stephen skilfully balances budgets and tight programs with exemplary and innovative design outcomes for clients.
